

RMT T172 is a compact pneumatic rammer designed for trenching, backfill, road repair, foundation, and site compaction work. Weighing just 2.3 kg, it offers easy handling and precise control during repeated tamping operations. Its compact design makes it suitable for contractors requiring reliable performance in daily and continuous compaction applications.

What is good about it?

- Time tested valve design.
- Round piston rod
- 63.5mm Rubber butt included

Specification

Model #	RMT T 172	
Length	280 mm	11"
Weight	2.3 kg	5 lb
BPM	1800	
Air Pressure	6 Bar	90 psi
Air inlet	9.5 mm	3/8"
