

RMT rock drills are a combination of high performance and reliability. It has low spare parts consumption so maintenance cost is at its minimum. Though simple to operate, they are robust and even with low air consumption, they offer a high impact. Along with their pusher legs, they are proved to be a cost-saving drilling unit without compromising on production.

What is good about it?

- Low Weight
- High penetration with low air consumption
- Robust Rifle Bar rotation mechanism

Where it is used?

- Driving Drifts
- Tunnel
- Underground Mines

Specification

Model #	RMT 656W	
Weight	22 kg	48.5 lb
Length	630 mm	24.8"
Hole range	27 - 41 mm	1 " - 1.63 "
Hole depth	6 meters	19.6 ft
Air pressure	6 bar	87 psi
Air consumption	48 l/s	102 cfm
Blows per minute	2040	
Piston dia	65 mm	2.56"
Piston stroke	60 mm	2.36"
Air inlet	19 mm	¾"
Shank size - 8311 0303 45	22 x 108 mm	7⁄8" x 4¼"
