

DKR 36H is a high-rotation-speed pneumatic combi drill that delivers both rotary drilling and percussion hammering in one compact **4 kg** tool. Its hex shank ("H") locks the bit firmly to prevent slip, improving control and precision. It is ideal for dry construction and mining jobs such as drilling in softer rock/concrete, anchor or rock-bolt installation, and tunneling/civil works. The tool supports hole diameters from **8-38 mm** with up to **300 mm drilling depth**, making it suitable for varied site requirements. Lightweight and easy to handle, it performs well in hard-to-reach areas and for long working hours.

Specification

Model #	DKR 36H	
Weight	4.5kg	10 lbs
Length	375 mm	14.8"
Air pressure	6.2 bar	90 psi
Air consumption	10 l/s	21 cfm
Hose connection	19 mm	3/4"
Shank Size	14.7 x 89 mm	0.580" x 3 1/2"
Blows per minute	2820	
Revolutions	250 rpm
