

The **CP 0066** Scabbler is built for efficient cleaning and roughening of concrete surfaces and construction joints. Designed for durability and precision, it removes laitance, coatings, and surface irregularities with ease. This powerful pneumatic tool is also perfect for creating textured or decorative finishes on concrete structures. Trusted in the construction and repair industry, the **CP 0066** delivers reliable performance, low maintenance, and smooth operation in tough job conditions.

r

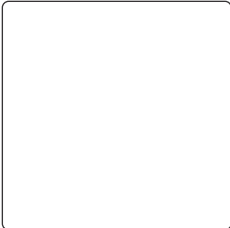

### What is good about it?

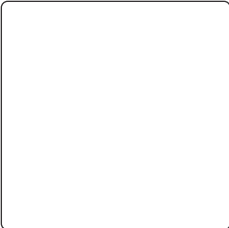

- Excellent power-to-weight ratio
- Teasing throttle for precise control
