

The CP 4123 series consists of three pneumatic tool models designed for high durability and easy maintenance in demanding work environments. These models offer varying performance levels, ranging from 1,600 to 2,500 blows per minute with tool weights between 7 kg and 8.65 kg. All units share standard operational requirements, including a consistent air pressure of 6.2 bar (90 PSI) and a consumption rate of 14 l/s. Key design features include an ergonomic swan neck handle, a long-life nozzle, and a spring retainer for secure operation. Additionally, the series is highly versatile, with all models available in both hexagonal and round shank configurations to suit specific application needs.

Specification

Model #	CP 4123 2R	
Weight	7 kg	15 lb
Length	375 mm	14.8"
Blows per minute	2500	
Piston stroke	50.8 mm	2"
Air pressure	6.2 bar	90 PSI
Air consumption	14 l/s	30 cfm
Piston dia	28.6 mm	1.13"
Air inlet (Standard)	9.5 mm	3/8" BSP
Air inlet (Optional)	9.5 mm	3/8" NPT
Retainer type	Spring	
Shank	8900 0001 05	8900 0001 04
Manufacturer	OEM
