

## RMT 4608 P / 4611

**RIVET BUSTER** 

**Construction / Demolition Tools** 

RMT Rivet Busters provide the same performance as a breaker of double of its weight would have provided. Our busters are slim, light weight yet very powerful. They are available in 8" and 11" cylinder lengths. It not only cuts and drive metal rivets, but they are more commonly called on to break concrete as well.

## What is good about it?

- Perfect tool for variety of concrete and metal applications
- Forged steel handle and hardened piston for long life in rugged conditions
- Stepped cylinder for extra safety
- Available with chromed cylinder or black barrel
- Can be used horizontally too

## Where it is used?

- Cutting and removing large rivets and bolts
- Cutting metal tanks or plates
- Bridge deck work where breaker weight is a problem
- De-capping foundation pillas on hard concrete
- Medium to heavy concrete renovation
