

The CP 0009 CS (8900002007 / T022322) is a lightweight 4.5 kg original Chicago Pneumatic combi rotary drill that automatically switches between hammering and drilling based on the chisel used, ideal for anchor bolts, rock bolting, and structural holes in concrete, rock, and masonry up to 32 mm diameter and 450 mm depth. Its rotary percussion action, SDS compatibility, and easy handling make it perfect for construction, renovation, and civil engineering tasks in any orientation. Supplied by RMT as a genuine OEM tool (or 100% equivalent aftermarket option) with full spare parts support.
