

The **RH 658 5L** is a globally trusted, heavy-duty pneumatic sinker drill designed for hard and abrasive rock like granite and quartzite. Weighing **24 kg**, it offers a high rotation speed of **215 rpm**, ensuring rounder holes and more accurate blast patterns compared to lighter models. It features a standard **22 x 108 mm shank** and has the power to drill up to **6 metres deep** with ease, making it an industry standard for shaft sinking and quarrying. A versatile tool by design, it can be converted into a **jackleg drill** using an adapter for horizontal drilling in underground mines.
