

Rammers are perfect compacting soil and sand in such applications as foundry molds, backfilling foundations, pipe work, and cable trenching, these tools are built to withstand heavy use in tough environments and include effective seal designs that keep internal components free from dirt and grit.

Bench rammers Ideal for compacting small sand molds in a foundry or casting facility. Its shorter height and light weight allow this unit to be used on smaller molds that are setup waist high. Its unique double action “sand wiper” seal excludes dirt and grit from inside the tool for reduced wear and long life.

### What is good about it?

- Time tested valve design.
- Round piston rod
- 63.5mm Rubber butt included

### Specification

Model #	RMT R 115	
Stroke	102 mm	4"
Length	460 mm	18"
Weight	4.2 kgs	9.25 lb
Butt size (Rubber)	63.5 mm	2.5"
B.P.M	850 (± 5%)	
Air Pressure	6 Bar	90 psi
Air Consumption	7 l/s	15 cfm
Air Inlet	9.5 mm	3/8"
