

**RH 571** suits for smaller jobs owing to its light weight. It is very low maintenance drill. Spares are easily available. It has blower which ensures deep hole cleaning.

### What is good about it?

- Low weight with lots of power
- Forged steel body
- High Penetration rate
- Robust Rifle Bar rotation mechanism and high impact energy
- Built in air flushing to ensure drill chipping does not allow jamming

### Where it is used?

- Smaller Jobs - Bench / Secondary drilling
- Smaller Jobs - Smooth Blast drilling
- For drilling of narrow faces, in poor footing ground
- For secondary drilling and other light jobs

### Specification

| Model #                   | RH 571        |               |
|---------------------------|---------------|---------------|
| Weight                    | 18 kg         | 39 lb         |
| Length                    | 510 mm        | 20"           |
| Hole Range                | 28 mm - 34 mm | 1.10" - 1.33" |
| Hole depth                | 6 metres      | 19.6 ft       |
| Air pressure              | 6 bar         | 87 psi        |
| Air consumption           | 39 l/s        | 83 cfm        |
| Blow per minute           | 2100          |               |
| Revolution                | 190 rpm       |               |
| Piston dia                | 55 mm         | 2.16"         |
| Piston stroke             | 60 mm         | 2.36"         |
| Air inlet (BSP)           | 19 mm         | ¾"            |
| Shank size - 8311 0301 29 | 22 x 108 mm   | ¾" x 4¼"      |
