

The SBL 06 PE Scabbler is a high-performance pneumatic tool designed for removing rust, coatings, and surface irregularities on concrete and metal surfaces. Its durable construction and powerful impact ensure reliable performance, making it ideal for construction, repair, and industrial surface preparation.

What is good about it?

- High-performance pneumatic design.
- Three pistons provide powerful impact performance.
- Durable construction for demanding applications.
- Suitable for removing rust, coatings and surface irregularities.
- Designed for reliable surface preparation work.

Where it is used?

- Concrete surface preparation.
- Metal surface preparation.
- Rust and coating removal.
- Construction and repair work.
- Industrial surface preparation.

Specification

Model #	SBL 06 PE	
Weight	6.8 kg	15 lb
Length	470 mm	18.5"
Air consumption	13 l/s	27.5 cfm
Hose connection	12.7 mm	½"
Piston	3	
Blows Per Minute Per Piston (Three Piston)	3000 bpm	
Part Number	8461 0250 12	
Manufacturer	OEM
