

A good lubricant improves the functioning of pneumatic equipment. It reduces wear and the need for maintenance, increases productivity and improves the overall economy. RMT offers the lubricators (oil bottles) to ensure effective lubrication of all compressed air machines.

What is good about it?

- Precise oil regulation control
- Versatile and rugged design
- Enhances drill life and efficiency

Where it is used?

- RMT 50 is recommended for RMT S250 Pneumatic Jackleg Drill.

Specification

Model #	RMT 50	
Oil volume	0.71 Litre	0.19 Gallons
Length	200 mm	8 "
Dimeter	115 mm	4 ½ "
Weight Empty	3.5 Kg	8 lb
Weight Full	5.5 kg	12 lb
Pressure Rated	17 bar	250 psi
Safety Fill Cap Diameter	48 mm	1 ⅞ "
Pressure Tested to Destruction	83 bar	1200 psi
Pipe Thread Size at Intake or Outlet	32mm	1 ¼ "
Bushing Sizes Available	32,25 mm or 19 mm	1 ¼ - 1" or ¾ "
