

RMT 133D Rivet Busters are low weighted but heavy-duty powerful hammers with a teasing throttle. It is equivalent to **APT 133D** Rivet Buster. It is ideally suited for bridge deck repair due to its optimal weight and performance. It is also a preferred choice for applications such as cutting up underground storage tanks and other demanding demolition work.

What is good about it?

- Drop forged, D-style steel handle
- Deep case-hardened alloy steel cylinder
- Heavy duty upper and lower sleeves
- Teflon throttle valve
- Inside trigger for better control and safety

Where it is used?

- Cutting and removing large rivets and bolts
- Cutting metal tanks or plates
- Bridge deck work where breaker weight is a problem
- De-capping foundation pillars on hard concrete
- Medium to heavy concrete renovation

Specification

Model #	RMT 133D	
Technically Equivalent To	APT 133D	
Weight	13.6 kg	30 lb
Length	570 mm	22.5"
Blows Per minute	1140	
Piston Stroke	203 mm	8"
Air Consumption	19.8 - 21.7 ls	42 - 46 cfm
Air inlet (NPTF thread)	12.7 mm	1/2"
Shank Size	Jumbo	
Reference	5216	
Manufacturer	RMT	

Working Tools

Lubricator
