

The RMT SECO S215 is a jackleg drill designed for drilling holes in hard rocks horizontally with the help of a pusher leg. It is light enough to be held by one person and guide it to drill, but being light does not reduce its power. It is capable enough to make deep holes in minutes. The S215 drill weighs 22.6 kg and delivers 2175 blows per minute. The mechanical drilling rate (penetration rate) of the SECO S215 typically ranges between 250 mm/min and 450 mm/min (approx. 10 to 18 inches per minute) under standard operational conditions.

What is good about it?

- High penetration speed
- Rig mount

Where it is used?

- Under ground mining
- Tunnel
- Metal mines

Specification

Model #	RMT S215	
Weight	22.6 kg	49.82 lb
Length	730 mm	28.7"
Air Consumption	55 l/s	116.5 cfm
Stroke	55 mm	2.16"
Shank Size	22 x 108 mm	7/8" x 4 1/4"
Air Pressure	6 bar	87 psi
Air Inlet	19 mm	3/4" BSP
Manufacturer	RMT	

Working Tools

Lubricator
